LED Apple Bulb

- Vintage Edison style suits your need for a retro style decoration, E26/E27 base suitable for various applications
- 50W incandescent replacement consumes only 7 watts of energy ,save up to 86% on electric bill and creates 650lm of light
- UL listed, high quality COB LED light with a long lifespan of 30,000 hours, reduces your bulb changing frequency.
- Specially designed filaments generate 2700k warm white light, instant on without any delay
- Clear plastic cover provides an omni-directional 300°beam angle and even light distribution
